

SCHEDULE WA-7

SPECIAL METERED SERVICE

APPLICABILITY:

Applicable to non profit historic-site designated cemeteries and properties owned or maintained by the City, including without limitation: parks, groves, landscaped medians and reverse frontage.

TERRITORY:

City of Riverside and contiguous area.

RATES:

A. Basic Area (Inside City)

<u>Quantity Rates</u>		<u>Per 100 Cubic Feet</u>
All 100 cubic feet per month		\$0.84
<u>Minimum Charge</u>	<u>Meter Size</u>	<u>Minimum Monthly Charge</u>
	5/8 and 3/4-inch	\$8.97
	1-inch	14.92
	1-1/2-inch	29.88
	2-inch	45.07
	3-inch	90.13
	4-inch	180.27
	6-inch	357.67

The Minimum Charge will entitle the Customer to the quantity of water which that monthly minimum charge will purchase at the Quantity Rates.

B. Surcharge Area Outside Only

Charges shall be the amount computed at the Quantity Rates and the Minimum charge set forth in the Basic Area of this schedule multiplied by 1.5.

SPECIAL CONDITIONS:

1. This water rate schedule shall remain in effect until such time as recycled or other non-potable water becomes available for irrigation to WA-7 Customers at a cost less than or equal to the WA-7 rates. When recycled or other non-potable water is made available to a WA-7 Customer, such Customer shall take such recycled or other non-potable water under the applicable Water Utility Rules and Rates in effect from time to time, in lieu of potable water deliveries made and priced at the rate stated in this Rate Schedule WA-7.
2. Water Conservation and Reclamation Surcharge

The rates and charges above are subject to a surcharge (Water Conservation and Reclamation Surcharge) as adopted via City Council Resolution No. 20695 on May 25, 2004 and such surcharge as in effect from time to time. The Water Conservation and Reclamation Surcharge will be applied to the Customer's total water usage charge including without limitation the quantity rates, customer and minimum charge for the applicable billing period.

ENERGY COST ADJUSTMENT FOR PUMPING WATER:

The Quantity Rates shall be subject to an energy cost adjustment relating to increases and decreases in the cost of electric power for pumping water. This energy cost adjustment shall apply to each one hundred cubic feet (CCF) of sales to which Quantity Rates apply.

Determination of the adjustment factor shall be made at the beginning of each quarter, with the initial adjustment beginning February 1, 1983.

The energy cost adjustment shall be calculated by dividing the CCF of metered water sold in each quarter into the total dollar amount of fuel cost adjustments plus any base rate increases imposed by power suppliers for pumping water during that quarter:

- A. Fuel cost adjustment charges by Southern California Edison Company.
- B. Fuel cost surcharge charges by City of Riverside.
- C. Base rate increase charges by Southern California Edison Company.*
- D. Base rate increase charges by City of Riverside.*

$$\frac{\$ (A+B+C+D)}{\text{CCF (Metered Sales)}} = \$.0000 \text{ per CCF}$$

The resultant shall be the energy cost adjustment factor for pumping water and shall be expressed in terms of cents per CCF carried out to the nearest \$0.0001. This factor shall be divided by 0.885 to allow for the 11.5% of gross revenue payable to the City General Fund. The resultant shall then become the energy cost adjustment to be multiplied by all CCF increments reported in billings to Customers. The resultant amount in each case, expressed to the nearest \$0.01, shall constitute the adjustment to be added to the Customer's bill.

*(Over base rates in effect February 1, 1983)
